

RALPH D. BROGADA

IT Professional | QA Engineer | Technical Support Specialist

09924630793 • brogadaralph6@gmail.com • github.com/rlphkun • Aroroy, Juban, Sorsogon

PROFESSIONAL PROFILE

Magna Cum Laude IT graduate with hands-on experience spanning software quality assurance, technical operations, and full-stack web development. Proven ability to follow strict protocols, document issues clearly, and troubleshoot systems under real-world conditions. Adept at identifying defects, validating system behavior, and supporting technical workflows with precision and reliability. Comfortable working across development, testing, and operations environments — equally capable in a QA role validating software quality or in an IT support role maintaining systems and resolving technical issues.

WORK EXPERIENCE

Robot/VR Operations & Data Specialist | Outsource *March 2026 – June 2026 (Contractual)*

- Operated and monitored data collection workflows for AI and robotics training pipelines, ensuring data integrity and traceability
- Validated structured data samples against quality specifications — identifying and flagging anomalies before pipeline submission
- Followed strict operational protocols in a high-accountability environment, maintaining consistency across all submitted outputs
- Performed quality checks similar to acceptance testing, verifying that collected data met defined functional and formatting criteria
- Demonstrated strong systems discipline, operating technical equipment with precision under process-driven constraints

Quality Assurance Intern | OnDemandInnovation (ODI) *2025 – 2026*

- Performed manual functional and regression testing on web-based applications across core workflows and edge cases
- Designed and executed test cases derived from system requirements, covering both expected behaviors and failure scenarios
- Documented and reported software defects with detailed reproduction steps and screenshots using Jira
- Collaborated with developers during fix validation cycles, confirming that updates met defined acceptance criteria
- Supported structured QA processes that improved system stability and reduced regression risks before releases

PROJECTS

JohnTech POS & Inventory Management System *2025 – 2026*

Technologies: PHP, JavaScript, HTML, CSS, MySQL | Roles: Developer, QA, System Admin

- Built a multi-branch web-based POS and Inventory Management System with role-based access control, deployed to a live server
- Designed and implemented real-time sales and inventory tracking across two branches with automated stock management
- Served as both developer and QA — writing test cases, running regression cycles, and documenting defects throughout the build
- Managed database design, server configuration, and deployment — directly relevant to IT support and systems administration work

CryptChat – Privacy Communication App *2025*

Technologies: Figma, UI/UX Design, Prototyping

- Designed UI/UX for a privacy-focused messaging app with end-to-end encryption, disappearing messages, and 2FA

- Conducted usability walkthroughs against functional requirements — validating interaction flows before handoff

E-Commerce Website – Online Store

2024

Technologies: WordPress, Elementor

- Built a fully functional e-commerce store with product catalog, shopping cart, and checkout workflows
- Tested end-to-end purchase flows and validated UI consistency across desktop and mobile platforms

TECHNICAL SKILLS

QA & Testing: Manual Testing, Functional Testing, Regression Testing, Test Case Design, Bug Reporting, Defect Tracking

IT & Systems: System Troubleshooting, Server Configuration, Database Administration (MySQL), Network Basics, Protocol Adherence

Data & Operations: Data Collection, Data Validation, AI Training Pipelines, Quality Checking, Documentation

Bug Tracking: Jira, Confluence

Languages: PHP, JavaScript, HTML, CSS, SQL

Tools: VS Code, Cursor, Figma, GitHub, XAMPP, MySQL Workbench, WordPress

EDUCATION

BS Information Technology

2022 – 2026

Computer Communication Development Institute — **Magna Cum Laude**

Junior – Senior High School

2017 – 2022

Juban National High School

CERTIFICATIONS

- Learning Jira Cloud Edition
- Learning Jira Software
- Learning Confluence
- Figma Essential Training: The Basics
